The world has been ravaged by war, famine, and disease. The once-great cities are now nothing but ruins, and the survivors are scattered across the land. Six of these survivors - a doctor, a soldier, a teacher, a farmer, a mechanic, and a scientist - find themselves thrown together by chance.

At first, they are wary of each other, but they soon realize that they need to work together if they want to survive. They pool their skills and resources, and they begin to build a new community. But their new world is not without its dangers.

They must contend with raiders, scavengers, and the remnants of the old world order. But the greatest danger they face is the darkness that threatens to consume them from within.

As they struggle to survive, the six survivors must confront their own demons. They must learn to trust each other, to forgive each other, and to find hope in a world that seems hopeless.
