The title of the collection comes from the opening line of the first story, "Strange Nights." This story sets the tone for the rest of the collection, as it explores the strange and unsettling events that can occur in the most ordinary of lives.

In "Some Days Too," the protagonist is a woman who is struggling with the loss of her husband. She finds herself drawn to a strange and magical

world, where she can escape the pain of her grief. However, she soon realizes that this world is not as innocent as it seems.

The stories in *Strange Nights and Some Days Too* are full of surprises and twists and turns. They will make you laugh and cry, and they will stay with you long after you finish reading them.

Surrealism and the Everyday

Surrealism is a literary and artistic movement that emerged in the early 20th century. Surrealists sought to explore the subconscious mind and to create art that was free from the constraints of reason and logic.

The stories in *Strange Nights and Some Days Too* are all influenced by surrealism, in one way or another. Some of the stories are more overtly surreal, while others use more subtle techniques to create a sense of the uncanny or the strange.

For example, the story "The Red Room" is set in a strange and dreamlike world, where the laws of physics do not apply. The protagonist is a young woman who is lost and confused, and she must find her way out of this strange world before she is consumed by it.

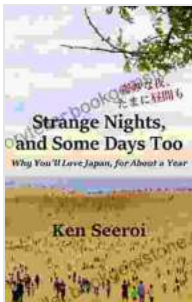

In contrast, the story "The Day the World Stood Still" is a more realistic story, but it still contains elements of the surreal. The protagonist is a man who is stuck in a traffic jam, and he begins to experience strange and unsettling hallucinations. As the traffic jam continues, the man's hallucinations become more and more intense, and he begins to question his own sanity.

The Human Experience

The stories in *Strange Nights and Some Days Too* explore a wide range of human experiences, from love and loss to joy and sorrow. The characters in these stories are all flawed and complex, and they are all struggling to find their place in the world.

For example, the story "The Last Day" is about a man who is dying from cancer. The man is faced with his own mortality, and he must come to terms with his life and his death. The story is both heartbreaking and hopeful, and it offers a unique perspective on the human experience.

Strange Nights and Some Days Too is a collection of short stories that is sure to stay with you long after you finish reading it. The stories are full of surprises and twists and turns, and they offer a unique and thought-provoking perspective on the human experience.
